### Product description

## Ork Air Waaagh! Fighta Bommerz

This flexible aircraft does exactly what its name implies, serving as both an attack fighter and a bomber. It is equipped with quad big shootas, turret big shootas, and an ever-handy tail gun with which to defend itself against enemy fighters.

The set includes:

- 4x multipart plastic Ork Air Waaagh! Fighta Bommerz miniatures (the kit also includes a selection of rokkits, wing bombs, big bombs, and kustom big shootas to upgrade your miniatures with)
- 4x Aeronautica Imperialis bases (Each base designates the model's front, rear and side arcs as well as speed and altitude dials. Each base also includes a clear stand to connect the aircraft to the base.)
- 1x Fighta Bommerz transfer sheet

The rules for using these miniatures in games of Aeronautica Imperialis can be found in both Aeronautica Imperialis: Wings of Vengeance and the Rynn's World Air War Campaign Book.
