## **Product description**

## Orks: Warboss in Mega Armour

The strongest and meanest among his already brutal kin, the Warboss supplements his fearsome bulk and staggering might with powered armour that makes him a force to be reckoned with on the battlefield. He strides into battle with a boss pole that denotes his rank, an 'uge choppa that decimates his foes, and a big shoota operated by a grot perching precariously on his armour.

This kit comprises 17 plastic components with which you can assemble one Warboss in Mega Armour and is supplied with 1x Citadel 50mm Round Base. This miniature is supplied unpainted and requires assembly – we recommend using Citadel Plastic Glue and Citadel paints.
