Product description

Perturabo, Primarch of the Iron Warriors Legion

Perturabo is wearing his unique armour. It is incredibly detailed and includes ammo feeds for his wrist-mounted cannon, as well as the markings of his Legion. Two right hands are included in this kit, with the options of a clenched fist or the thunder-hammer Forgebreaker.

This 25-part resin kit is provided with a 40mm gaming base, and a 60mm scenic base that depicts the ruined chassis of a Cerastus Knight.

Rules for using Perturabo in your games of Warhammer: The Horus Heresy can be found in Liber Hereticus – Traitor Legiones Astartes Army Book. This miniature is supplied unpainted and requires assembly – we recommend using Citadel paints.

This resin modelling kit is not a toy – it is a collectible item and construction should only be undertaken by expert Warhammer hobbyists aged 15 years and over.
