Product description

Realmscape: Megadroth Remains

This multipart plastic kit builds one set of Megadroth Remains, an imposing terrain piece themed around the wild lands of Ghur. This colossal skeleton looks right at home on any battlefield, and can be assembled as three separate sections - the ribcage, skull, and lower jaw - allowing you to arrange the fallen monster as you see fit, with an open or closed jaw. It can combined with the rest of the Realmscape terrain range to build your own Ghurish outpost for armies and warbands to fight over.

This kit comprises 23 plastic components. This miniature is supplied unpainted and requires assembly - we recommend using Citadel Plastic Glue and Citadel Colour paints. Note that some components are intended to be assembled without glue.
