### Product description

## Seraphon: Aggradon Lancers

This multipart plastic kit builds three Aggradon Lancers – formidable and bloodthirsty Seraphon cavalry. The saurus riders can all be armed with a barbed celestite club or a piercing celestite spear, and each comes with two armoured collars to give you a choice of poses. One model can be built as an Alpha champion – with a choice of unique heads and weapons, alternate arm poses, and a unique shield – one as a War-drummer musician, and one as an imposing Icon Bearer.

The kit provides a wealth of customisation options – six heads and three shields that can be used with any of the riders, as well as interchangeable tails, armour plates, and feather decorations for the aggradons – allowing you to build a varied roster of reptilian riders and steeds.

This kit comprises 95 plastic components, and comes with three Citadel 75x42mm Oval Bases. These miniatures are supplied unassembled and unpainted – we recommend using Citadel Plastic Glue and Citadel Colour paints.
