Producer code	99123005009
EAN	5011921203390
Manufacturer	Games Workshop

Product description

Solar Auxilia: Aethon Heavy Sentinel

This multipart plastic kit builds one Aethon Heavy Sentinel, an armoured combat walker for the Solar Auxilia. The Sentinel comes with an arsenal of heavy weaponry, and can be armed with one of six dorsal guns – a volkite culverin, autocannon, heavy incinerator, lascannon, multi-laser, or a melta lance. It also features paired ordnance systems on its sides – either an Aethon missile battery, or a set of four hunter-killer missiles.

The Aethon Heavy Sentinel's weapon mounts allow for glueless assembly, so you can adjust their positions mid-game. Its legs can also be assembled in different poses to add variety and character to your squadrons – an adventurous hobbyist can even remove the pegs, for full poseability on every leg-joint!

This kit comprises 75 plastic components, a Citadel 80mm Round Base, and a Solar Auxilia Vehicle Transfer Sheet containing 180 high-quality waterslide transfers. This miniature is supplied unpainted and requires assembly – we recommend using Citadel Plastic Glue and Citadel Colour paints.
