EAN	<b>5011921203284</b>
Manufacturer	<b>Games Workshop</b>

### Product description

## Solar Auxilia: Dracosan Armoured Transport

This multipart plastic kit builds one Dracosan Armoured Transport, a bulky Solar Auxilia troop conveyer. This huge vehicle is loaded with protective plating and environmental systems to keep its cargo alive, and features a heavily-armoured access door on both sides. The Dracosan's hull supports one of two weapons, allowing it to support your infantry even after delivering them to the front lines – a heavy lascannon for picking off enemy armour, or an explosive demolisher cannon to make short work of bunkers.

The kit includes components to upgrade your Dracosan Armoured Transport with hunter-killer missiles, a flare shield, and a dozer blade. The rear hatch can be built with closed doors, or opened for a Solar Auxilia gunner with a pintle-mounted weapon – a heavy flamer, multi-laser, or heavy stubber. You'll also find plenty of cosmetic options, such as sigils, armour patches, a spotter, and a choice of crew heads.

This kit comprises 154 plastic components, as well as a Solar Auxilia Vehicle Transfer Sheet containing 180 high-quality waterslide transfers. This miniature is supplied unpainted and requires assembly – we recommend using Citadel Plastic Glue and Citadel Colour paints.
