### Product description

## Soulblight Gravelords: Wight King on Skeletal Steed miniature

Ivya Volga is a loner amongst the Vyrkos dynasty, spurning the company of her vampiric kin in favour of her loyal swarm of bat familiars. She ranges far and wide across the realms, testing her strength against the most ferocious creatures she can find and feasting on their magic-infused blood.

This multipart plastic kit builds Ivya Volga, the Outcast, a powerful monster hunter of the Soulblight Gravelords. This half-wolf huntress is surrounded by a fanged cloud of faithful bats, gripping her heirloom axe in preparation for the hunt. Her fanged visage is locked into a snarl beneath her furred hat, her hair and skirt whipping in an unnatural breeze.

This kit comprises 8 plastic components, and a Citadel 32mm Round Base. This miniature is supplied unpainted and requires assembly – we recommend using Citadel Plastic Glue and Citadel Colour paints.
