Product description

Soulblight Gravelords: Wight King on Skeletal Steed miniature

Wight Kings are ancient rulers, resurrected by foul necromantic magic. Some of these Deathrattle monarchs take to battle atop ancient skeletal steeds, clad in rusted barding. These mounted warrior-lords typically ride at the very forefront of the undead advance, stampeding the enemy into dust and driving their lances into the hearts of the living.

This multipart plastic kit builds a Wight King on Skeletal Steed, a mounted war-leader raised by the Soulblight Gravelords. This undead lord brandishes an imposing tomb lance with a vicious tip, carrying an ornately decorated shield in its other hand. Both the Wight King and its morbid mount are clad in fluted, decaying armour emblazoned with the classic iconography of its vampiric masters, perfectly matching its role as a leader of the Deathrattle nations.

This kit comprises 11 plastic components, and comes with a Citadel 75x41.5mm Oval Base. This miniature is supplied unpainted and requires assembly – we recommend using Citadel Plastic Glue and Citadel Colour paints.
