## Product description

# Space Marines: Captain Messinius

First released as part of the Black Library Celebration 2023, Captain Messinius takes to the battlefield clad in power armour decorated with the symbols of the White Consuls, Crusade Fleet Tertius, and the Lord Commander himself. He wears a unique power fist adorned with sculpted auramite, and wields a plasma pistol in his other hand. Messinius can be built with a wreath-topped helmet or a bare head, revealing his scarred features.

This kit comprises 14 plastic components, and is supplied with 1x Citadel 40mm Round Base. This miniature is supplied unpainted and requires assembly – we recommend using Citadel Plastic Glue and Citadel Colour paints.

Messinius uses the Primaris Captain rules available in *Codex: Space Marines*, allowing you to field him in your Adeptus Astartes armies straight away.
