Product description

Space Marines: Primaris Eliminators

Dedicated marksmen, Eliminators haunt the shadows of the battlefield, seeking out targets of opportunity and bringing them down with pinpoint volleys of fire. Then, these silent assassins slip away looking for their next prey.

Each model in this squad can be armed either with a las fusil, which is perfect for taking out the toughest targets, or a bolt sniper rifle, which provides a choice of ammunition to suit any situation. The Sergeant can also be armed with an instigator bolt carbine. All three models can be assembled with or without helmets and the kit comes with a number of optional parts allowing you to individualise the unit.

The plastic kit is made up of 60 components and makes three Eliminators. Each model is supplied with a Citadel 40mm Round base. The set also includes a Primaris Space Marines Infantry transfer sheet.
