Number	48-07
Producer code	99120101316
EAN	5011921142453
Manufacturer	Games Workshop

Product description

Space Marines: Tactical Squad

This box contains everything you need to make a highly personalised 10 man Tactical Squad, including Sergeant and Special Weapon. There are so many options and extra details provided that we recommend that you take some time to look through the photos above to fully appreciate them all.

Space Marines

In order to build the Tactical Squad you get 11 torso fronts (of which 10 are unique designs); 10 different leg poses; 16 different heads (13 with helmets, 3 bare-headed); 22 shoulder pads; 10 backpacks (of which 9 are individual designs); and 10 sets of left and right arms.

Weapons

There are 10 unique boltguns, a gravgun, a meltagun, a plasma gun, a flamer, a missile launcher (including backpack and spare missiles). The squad Sergeant can be armed with a combination of power fist, power sword or chainsword, and plasma pistol, grav pistol or bolt pistol. You can also make any 1 of the following combi-bolters – combi-grav, combi-melta, combi-plasma, or combi-flamer. The squad can also be armed with a melta bomb, a selection of combat knives, and enough Frag and Krak grenades to arm each Space Marine.

Extra equipment

As if that wasn't enough, you also get: a back banner for the squad sergeant (with the choice of 3 different banner tops); a holstered bolt pistol; targeting scopes for the boltguns; parchments and purity seals; ammo pouches; an auspex; and 3 spare hands (1 pointing, 1 holding a grenade, and 1 holding a boltgun cartridge).

This plastic kit contains 179 components with which to make a 10 man Tactical Squad (and so much more!). Also included are 2 Ultramarines Infantry Transfer Sheet with which to add Chapter iconography and squad markings.

This kit comes supplied unpainted and requires assembly - we recommend using Citadel Plastic Glue and Citadel Paints.
