Product description

Stormcast Eternals: Lord-Celestant on Stardrake

This multi-part plastic kit contains all the components necessary to build one of the two following models:

A Lord-Celestant on Stardrake; armed with either a tempestos hammer or stormbound blade and sigmarite shield, or

A Drakesworn Templar, the retribution of the heavens given form, armed with either a tempest axe, arc hammer, or stormlance and skybolt bow.

The Stardrake itself, an imposingly large model, features two different designs of shoulder armour showing variations on the hammer, lightning and comet iconography, two head options allowing the choice of a roaring Stardrake or one with its mouth firmly closed, the option to alter the wing positions. It stands atop ruined and overgrown terrain.

This model comes in 108 components and is supplied with a 170x105mm Citadel Oval base.
