Product description

Thousand Sons: Ahzek Ahriman

This multipart plastic kit builds one Ahzek Ahriman, Chief Librarian of the Thousand Sons. Armed with his elegant force stave, the Corvidae Sceptre, and adorned with the occultic talismans and symbology of the XV Legion, Ahriman is a powerful psyker who takes to the field crackling with arcane energies. As master of the soothsaying Corvidae Cult, Ahriman uses his prophetic powers to guide allies on the battlefield – combined with his abilities as a field commander and close quarters combatant, he is an ideal linchpin around which to build a Thousand Sons army for Warhammer: The Horus Heresy.

This set comprises six plastic components, and is supplied with a Citadel 32mm Round Base. This miniature is supplied unpainted and requires assembly – we recommend using Citadel Plastic Glue and Citadel paints.

You will need a copy of the Warhammer: The Horus Heresy – Age of Darkness Rulebook and Liber Hereticus: Traitor Legiones Army Book to make full use of this model.
