EAN	5011921200306
Manufacturer	Games Workshop

Product description

Tyranids: Biovore

This multipart plastic kit builds a Biovore – a sentient Tyranid mortar – as well as three floating Spore Mines. The Biovore's lumbering form supports a symbiotic dorsal launcher, its spore-sac bulging with biological explosives waiting to be fired. The Spore Mines can be launched onto the battlefield by the Biovore, or simply rain down from the skies. The kit offers several alternate leg poses and basing elements for the Biovore, as well as three distinct designs of Spore Mine, allowing you to maintain variety in your brood as you build a whole battery of artillery-beasts.

The Biovore in this kit can alternatively be built as a Pyrovore, a fire-spewing Tyranid creature.

This kit comprises 37 plastic components, and comes with a Citadel 80mm Round Base and 3x Citadel 25mm Round Bases. These miniatures are supplied unpainted and require assembly – we recommend using Citadel Plastic Glue and Citadel Colour paints.
