## Product description

## Tyranids: Genestealers

This multipart plastic kit builds 10 Genestealers, fast and deadly melee killers for Tyranids and Genestealer Cults armies. These terrifying, four-armed creatures sport clutching talons alongside deadly rending claws, and each features a different dynamic pose for stalking across the battlefield. The kit includes cosmetic head options for every Genestealer, allowing you to build your entire brood with fanged maws and slavering tongues, feeder tendrils for that classic Ymgarl look, or mix-and-match for evolutionary variety. You'll also find four heads with protruding, barbed ovipositors – ready to deliver the infamous Genestealer's Kiss...

This kit comprises 109 plastic components, and comes with 10x Citadel 32mm Round Bases. These miniatures are supplied unpainted and require assembly – we recommend using Citadel Plastic Glue and Citadel Colour paints.
