Producer code	99120106069
EAN	5011921200344
Manufacturer	Games Workshop

Product description

Tyranids: Lictor

This multipart plastic kit builds a Lictor, a fearsome Tyranid ambush predator. This cunning creature lunges from shadows and darts up sheer vertical surfaces to tear foes apart, striking with its distinctive mantis-like talons. The Lictor's feeder tendrils allow it to even digest a victim's memories, and the kit includes two different heads – one with trailing feeder tendrils, the other with its tendril membrane aggressively flared.

This massively customisable monstrosity uses a variety of interchangeable legs, clawed arms, and scenic basing elements to create different poses for creeping across the battlefield – build your Lictor in a hunched stalk, braced to pounce, or looming ominously upright. Joints in its neck and scything talons allow you to adjust the pose even further, and extend or retract every element of its wickedly bladed arms.

This kit comprises 56 plastic components, and comes with a Citadel 50mm Round Base. This miniature is supplied unpainted and requires assembly – we recommend using Citadel Plastic Glue and Citadel Colour paints.
