Manufacturer	Games Workshop

Product description

Tyranids: Neurogaunts

This multipart plastic kit builds 11 Neurogaunts, including an overgrown Neurogaunt Nodebeast. These strange, eyeless Tyranid creatures gnaw and scratch with needle-sharp claws and teeth, channelling the will of the Hive Mind through their hump-like spinal symbiotes. Each Neurogaunt has a different scuttling pose, encouraging you to flood the battlefield with a skittering horde that overwhelms weakened foes and distracts from larger beasts.

This kit comprises 24 plastic components, and comes with 10x Citadel 25mm Round Hex Hole Bases and a Citadel 28.5mm Round Hex Hole Base. These push-fit miniatures can be assembled without glue, and are supplied unpainted – we recommend using Citadel Colour paints.
