Manufacturer	<b>Games Workshop</b>

### Product description

## Tyranids: Neurolictor

This multipart plastic kit builds a Neurolictor, a stealthy Tyranid terror weapon. This eerie, eyeless creature's sinister silhouette and mantis-like claws make its Lictor heritage clear, but the Neurolictor sports a massively overdeveloped alien brain, a prehensile cranial stinger, and barbed feeder tendrils – all vital adaptations for its vile role as a mind-destroying saboteur.

This kit comprises 15 plastic components and comes with a Citadel 50mm Round Base. This miniature is supplied unpainted and requires assembly – we recommend using Citadel Plastic Glue and Citadel Colour paints.
