### Product description

## Vanguard: Gloomspite Gitz

If you want to launch spiteful attacks from the shadows of the Mortal Realms, this box makes an ideal start to a Gloomspite Gitz army – or a way to expand your collection – and will save you money over buying its component kits individually. The box includes a cunning Loonboss to lead a horde of Battleline grots into battle, such as fiendish Stabbas and bouncing Squig Hoppers, supported by hulking Rockgut Troggoths. It's a full army in one box, leaving you ready to emerge from the caves and descend on your foes.

#### **This set includes the following multipart plastic models:**

- 1x Loonboss
- 3x Rockgut Troggoths
- 10x Squig Hoppers, which can also be built as Boingrot Bounderz
- 20x Moonclan Stabbas, which can also be built as Moonclan Shootas

All models are supplied with their appropriate bases.

These miniatures are supplied unpainted and require assembly – we recommend using Citadel Plastic Glue and Citadel Colour paints.
