Product description

Vanguard: Soulblight Gravelords miniatures set

The vampiric nobles of the Soulblight Gravelords build deathly empires to serve their every desire, enthralling mortals and raising the dead to fight wars of conquest. These immortal aristocrats constantly push to expand their holdings, for they will never be satisfied until the Mortal Realms are shrouded in night and drowned in blood.

If you want to drain the Mortal Realms dry, this box is the perfect way to start a new Soulblight Gravelords collection – or massively expand an existing army – and saves money compared to buying the kits individually. A sneering Vampire Lord leads a huge block of Deathrattle Skeletons to overwhelm enemies and serve as your Battleline, with fiendish Vargheists and armoured Blood Knights adding some serious vampiric punch. It's a full army in a box, leaving you ready to claim thralls and victories in games of Warhammer Age of Sigmar.

This set includes the following multipart plastic models:

- 1x Vampire Lord
- 3x Vargheists
- 5x Blood Knights
- 20x Deathrattle Skeletons

All models are supplied with their appropriate bases.

These miniatures are supplied unpainted and require assembly – we recommend using Citadel Plastic Glue and Citadel paints.
