Product description

Warhammer Day 2022 - Bayard's Revenge

This multipart plastic kit allows you to build a Commemorative Series model capturing the Emperor's Champion, Bayard of the Black Templars, as he buries his Black Sword in the chest of an Ork Nob. This diorama encapsulates the grim darkness of the far future in fine form, a treat for all fans of Warhammer 40,000. Festooned with details, including a huge variety of different textures and materials, an option for a stylized helmet or bare head, plus a fully sculpted display base, this model represents the perfect opportunity to show off the painting skills you've developed over your years in the Warhammer hobby.

This set comprises 17 plastic components and comes with a Citadel 50mm Round Base. This miniature is supplied unpainted and requires assembly – we recommend using Citadel Plastic Glue and Citadel Colour paints.
